Every audience is excited about Mikel Onetwo. The precision, energie and virtuosity they play and sing the classics and more modern pieces of music with and the authentic look and sound are not the only reason. They just want to mix Rockabilly, Rock'n'Roll, Rock and Blues, go wild and have some fun. And they won't stop until everybody is sore from dancing! 2013 they startet out from Hamburg, Germany to play festivals, open airs and club concerts at home and abroad with an energetic show that's as authentic as individual. Their modest aim: Becoming the best Rock'n'Roll band of the world. It seems, they have come dangerously close to achieving it. Just wait for their debut CD-release in spring 2017!

The band will be able to handle every event seasoned and flexibly with their own PA-system. Special requests (songs, unplugged gig, ...), from audience and promoters as well, can often satisfied spontaneously.
